# MKFM Programme Highlights

**At MKFM we believe in proper local radio. That's why day in, day out we broadcast the latest news, weather, and travel for Milton Keynes plus the biggest competitions and the best music from our studios at Stadium MK.**

**Some of our programme highlights include:**

## **MKFM Breakfast with Wes, Ros and Trev**

Wes, Ros and Trev have been waking up Milton Keynes every weekday morning from 7am from the beginning of 2023.

With the latest local news, weather, travel, and the best music to start your day, our Breakfast team will keep you entertained with fun features for the school run, commute to work or while you are at home. Plus, there's loads of great competitions!

## **Meet Wes, Ros and Trev**

**Wes** started in radio back in 2003 at Horizon in Milton Keynes. His big break came whilst being dressed as the 103 man (like the 118 guy but hairier). Since then, he's mooched around the world of radio - presenting breakfast and drive time shows all over the place - ironically being all over the place describes him very well. He hosted Weekend Breakfast on MKFM since the middle of 2022.

**Ros** is a self-confessed crazy cat lady with a wry sense of humour who likes to bring chaos and fun into any situation. Ros's natural ability to overshare means there's not one aspect of her life we won't get to hear about! Ros has lived

in Milton Keynes for 23 years and has hosted Breakfast on both Horizon Radio and Heart Radio in Milton Keynes. She also hosted Weekend Breakfast on MKFM since the middle of 2022.

**Trev** (Trevor Marshall) has been involved in broadcasting in Milton Keynes since the early 90s, when he started on the Horizon Radio Breakfast Show with Helen Legh. Trev subsequently worked with Ros and Cueball on Horizon Radio, before moving to host the Breakfast Show on Jack FM in Oxfordshire. Trevor has also been the voice of the MK Dons since 2004 and presenting Afternoons on MKFM since 2020.

## **Late Night Graham Torrington**

**Graham**, who hosted Late Night Love for 12 years on radio in Milton Keynes, has proven very popular with his return to late night radio on MKFM. The programme features a relaxing mix of music along with listener messages.

Late Night Love was renowned for helping hundreds of people with their relationship and sex issues, Graham is a master of understanding the route of many issues and has practical advice on hand which has helped many listeners across the years.

Late Night Graham Torrington airs on MKFM between 10pm and Midnight Sunday to Thursday with no news interruptions and advert free.

# Milton Keynes to come together in world record attempt for MK Food Bank

**MK Food Bank will be attempting to smash the current World Record for the longest line of cans of food. The World Record attempt will take place on World Food Day, Monday 16th October, in and around Campbell Park.**

The local charity is aiming for an ambitious target of 132,000 cans over a 10km line and is mobilising the whole of Milton Keynes to help achieve this. The route will be divided into 25 metre-long sections, which businesses, schools, local councils and community groups

can sign up to adopt.

By supporting a section of the line, any MK-based business or group can be part of this once in a lifetime event, helping the Food Bank support thousands of households in crisis, and putting Milton Keynes on the world map.

Several high-profile supporters have already committed to join MK Food Bank, but they have room to welcome many more. As well as businesses and community groups taking part, the public will also be invited to play their part by funding 5, 10 or 20 cans to add to the line.

In return, they will be able to participate in a celebration event on the day, where they can 'walk the line' and enjoy a range of entertainments along the way.

If successful, the initiative will provide over half of the canned food the Food Bank needs to support families and individuals in our local community for an entire year, forming a large part of their winter contingency plan to cope with the ongoing cost of living crisis in our community.
