Find your job in 25 conversations

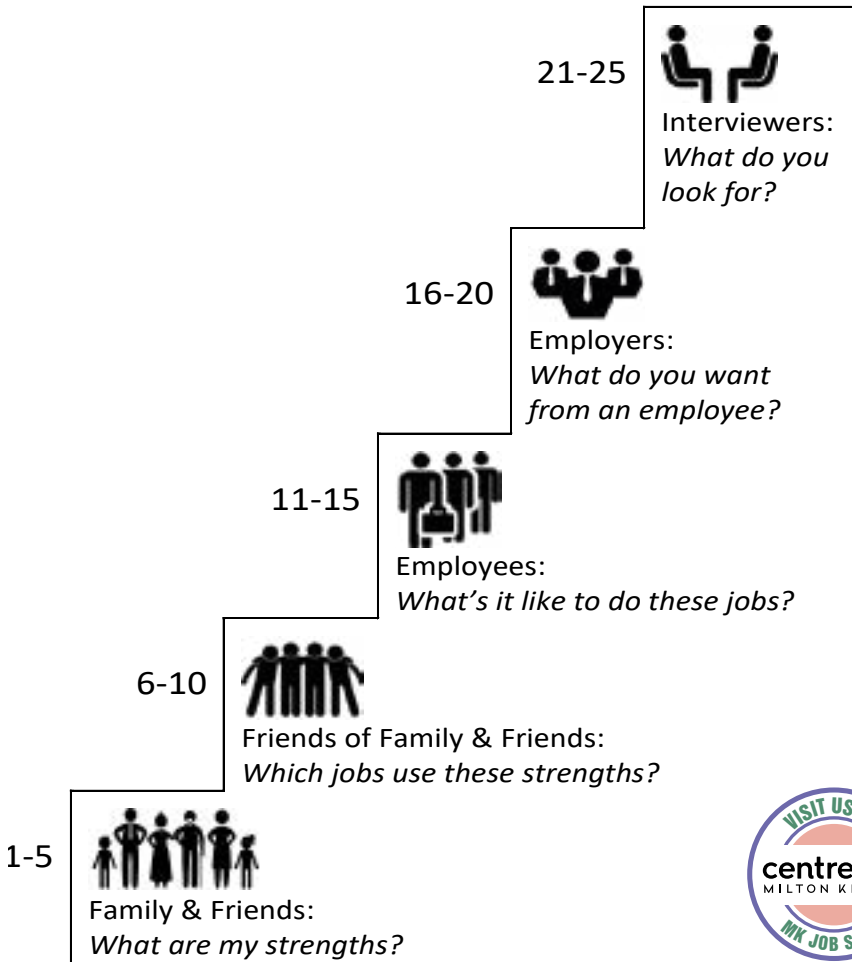

Many people worry about what job they should do. Some become demoralised filling in job applications and getting no positive responses.

‘25 conversations’ gives feedback and encourages next steps. It takes the job-seeker on a short journey of self-discovery which ends with a job that is enjoyable and pays.

Developed by charity Worktree, the method can be used by any adults, anywhere. It is for people who are ready to try something different and willing to use their conversation skills. It involves having a series of conversations, learning from them, then planning and having more. All that’s needed is the motivation to start, ability to talk, and commitment to finish.

Here are the 25 conversations.

If you would like to know more, visit the Worktree stand at the MK Job Show, or visit www.worktree.org.
